

YOUR TOOL-MAKING TOOL

Years of working closely with customers in tool, mold, model and jig making have resulted in a product that is specially tailored to meet the needs of this industry. Our software combines user-friendliness and access to information with rationality and speed when it comes to managing your orders and projects. It gives you an accurate summary of how much has been processed, alerts you when costs are likely to overrun and takes the load off cost estimators, production managers and administrative staff in all transactions. IKOffice MoldManager is easy to use and quick to master. The software offers solutions for estimation, quality assurance, administration, time tracking, quoting, invoicing, ordering, storage and delivery, production planning, capacity planning, data management and much more besides. And while the investment costs are low, the system boasts a high level of performance.

IKOffice provides an all-round service for a truly customized system, saving you from laborious IT jobs and ensuring your workstations remain resilient, secure and bang up to date. What's more, IKOffice staff will be happy to assist you if you have any comments or queries.

Ask about our online access which will give you the chance to explore our comprehensive IKOffice MoldManager solution, without any obligation.

"Keeping in constant contact with our users and understanding their work, combined with our ability and determination to develop the best, most comprehensive product of its kind for this industry are what make MoldManager such a winning solution!"

Ingo Kuhlmann
Director, IKOffice GmbH

GET THE JOB WITH WELL-PRESENTED QUOTATIONS, PREPARED QUICKLY AND EFFECTIVELY

Quotation templates are a quick and effective way of responding to incoming enquiries. Templates are fully itemized, so individual items won't be forgotten. At the click of a button, you can call up final costings of similar quotations to help you set your price. Your quotation can be enhanced with product pictures and your corporate branding and you can follow up on it at any time thanks to the reminder feature. MoldManager gives you a decisive edge over your competitors and brings you a step closer to landing the contract.

PRACTICAL PLANNING AND ADMINISTRATION FOR A SUCCESSFUL PROJECT

MoldManager allows you to plan your work in a way that is designed for tool-, mold-, model- and jig-making jobs – so there's no wasted effort. Since the system takes account of shifting circumstances in real time, you don't have to go back to square one whenever you need to make a change. All those involved get an overview of the process in an easy-to-understand and intuitive system. You'll notice bottlenecks and discover free capacity – the big picture in an instant! The result is a schedule for the day, week, group or individual – as fast and with as much detail as you want.

CONTROLS AND INFORMATION FOR LASTING COMMERCIAL SUCCESS

"Is the enquiry already taken care of? Has the quotation gone out? Were we too expensive last time? What's our backlog? Has the order come through yet? Have we got the bill? Have we invoiced everything?" User-friendly MoldManager holds the answers to all these questions. And as it's been devised specifically for your industry, you won't have to undergo time-consuming training. Instead you'll feel at home in no time! MoldManager features integrated document management, making it easy for you to assign information to your project. Pulled in from all company departments, the information can be clearly presented and at your fingertips in moments.
